

## YOUR SAFETY IS IN YOUR HANDS

MARS BIO-MED Hand Sanitizer is a clear, alcohol-based hand sanitizing gel that effectively kills both Germs and Bacteria and leaves hands feeling clean, refreshed, and smooth. Our Hand Sanitizer is formulated from Pharmaceutical Grade Ingredients.

Our formula contains 70% USP grade ethyl alcohol, moisturizing aloe, Glycerine, and vitamin E to ensure our formula is gentle on skin while still maintaining clinical performance. This product is an optimal solution for a variety of daily life situations. It is excellent for on-the-go to the office, school, or home and essential for any situation where bactericidal control is critical.
