MARS SILVERTEK COMFORT MASK

MARS Bio-Med's state of the art, ionic SilverTek Mask sets a new standard of comfort, breathability while you protect yourself, family, employees, co-workers, customers, and anyone else around you.

To meet this need, MARS Bio-Med has developed an innovative, next generation multi-layered mask. Manufactured in Canada with a non-woven polypropylene internal media and covered with a simple soft cotton.

Many of our customers state, our masks are comfortable enough to wear all day inside and out.

MARS Bio-Med masks have a unique, proprietary silver ion formula the is designed for comfort, but more importantly, to protect you and others.

"The mask has an awesome fit, quality, and feel!! Also, so much better fitting over the mouth, nose and cheeks." - Zoey M.

*"The MARS Mask is my favourite mask; I do not leave the house without it. The material of the mask is top quality, soft and the mask does not move around when you talk. I am very pleased with this product."
-Megan Morgan*
