LibertyBOSS Wet/Dry STARTER KIT

Upgrade to NO Maintenance, NO Filters and Guaranteed Compliance for up to 3 Years

"We are very pleased with our new LibertyBOSS amalgam separator. Before the BOSS, our suctions were extremely weak. Often, our pump would make loud unpleasant sounds. Since we switched, we do not hear any sounds, and our evacuation lines are consistently powerful." - Newmarket Health Dental

AMALGAM SEPARATOR STARTER KIT

The Starter Kit includes the following:

- All Parts Required for a Standard Amalgam Separator Installation
- Amalgam Separator Recycling
- Warranty Registration Card
- Certificate of Compliance
- Automatic Compliance Reminder
- NO maintenance, NO Filters for up to 3 Years with the MARS LibertyBOSS

"In the past, I had the MARS LibertyBOSS. About a year and a half ago, on the advice of a Technician, I changed over to the SolmeteX Hg5. I soon realized that I was having to change the filters every 4 months. Needless to say, it was getting expensive. I am happy to come back to MARS, as I don't have to worry about changing the LibertyBOSS for another 3 years. It is good to be a part of the MARS Family of Environmentally Friendly Dental Practices again." - Dr. Anna Shieh, Bronte Dental
